

**FLINT CENTER  
FOR EDUCATIONAL  
EXCELLENCE**

# ARE YOU READY TO GET INVOLVED?

## WHAT IS THE NETWORK FOR SCHOOL EXCELLENCE?

The **Network for School Excellence** will develop and test strategies to improve outcomes for students and build supportive schools for all families, such as ensuring that families have afterschool care, lowering class sizes, or developing a pipeline for teacher recruitment. Network schools will serve as demonstration sites of how different types of schools can best serve Flint children and families, and lessons learned from Network schools will be shared with other schools and districts in the area—this dissemination of information about what works will be a key part of this pillar. The C.S. Mott Foundation will support the Network for 5 years, with the expectation that the investment will lead to more open, transparent communication about successes and significantly improve Flint student outcomes

The Flint Center for Educational Excellence is creating a system that works for all Flint kids by providing educational programs, research, and advocacy that ensure Flint kids, their families, and communities thrive.

### ABOUT US

The Flint Center for Educational Excellence (The Flint Center) was founded in 2023 with the mission of building a community that works for all Flint kids by providing educational programs, research, and advocacy that ensure Flint kids, their families, and communities thrive. Full-service community schools strategies enable communities to support the success of children, families, and communities by transforming neighborhood schools into hubs for student success, family partnership, and community engagement through the integration and interweaving of community partnerships and services into traditional schools. With support from the C.S. Mott Foundation, the Center seeks to transform Flint-area schools into community hubs through a strategy that leverages the C.S. Mott Foundation's previous Flint-area education grants by consolidating community education and afterschool programs under one integrated strategy.

**THRIVING SCHOOLS,  
THRIVING FAMILIES,  
THRIVING COMMUNITIES.**
